TEACHERS WORKSHOP

Ready to create your first TouchCast?
How to make a TouchCast // Step by step training

1. Register / Login
2. Plan your TouchCast
   - Resources:
     1. Write and time your script -- Tele-prompt Text tool
     3. Plan and Create your Whiteboards -- choose a board and use the Text / Drawing tools
3. Create a new TouchCast
4. Save
5. Add and Organize vApps
6. Record your TouchCast
   - Record
   - Add Effects
   - Add vApps
   - Draw / Add Text
7. View
   - Save and Share / Re-record / Delete / Start again

## How to make a TouchCast // Plan your TouchCast

<table>
<thead>
<tr>
<th>Time</th>
<th>Script – MLK Assignment Example</th>
<th>vApps / Whiteboard</th>
</tr>
</thead>
<tbody>
<tr>
<td>2 min</td>
<td>Introduction: Today we are going to talk about Dr. Martin Luther King’s speech “I Have a Dream.” “I Have a Dream” is the speech MLK gave to civil rights supporters from the steps of the Lincoln Memorial on August 28th 1963 during the March on Washington.</td>
<td>Background Photo: Martin Luther King. (10s) Map app - Washington DC. (20s) Whiteboard: &quot;I Have a Dream,&quot; Dr. Martin Luther King Jr. (30s) Write on the board - 8.28.1963 and circle on map Lincoln memorial</td>
</tr>
<tr>
<td>Independent work</td>
<td>You can touch the vApp to watch the speech.</td>
<td><a href="http://www.youtube.com/watch?v=smEqnnkIfYs">http://www.youtube.com/watch?v=smEqnnkIfYs</a></td>
</tr>
<tr>
<td>30 sec and independent work</td>
<td>Which theme are you most passionate about in this speech? Vote from the following options</td>
<td>Poll: Equality, Freedom, Justice, Dream</td>
</tr>
<tr>
<td>1 min</td>
<td>King dreamed of a future where his children would “one day live in a nation where they will not be judged by the color of their skin but by the content of their character.” King had made a compelling case for non-violent racial change. The speech has become one of the most famous of all time and is regarded as a milestone event for the civil rights movement. The most famous quote from this speech is “I have a dream that one day little black boys and girls will be holding hands with little white boys and girls.”</td>
<td>Quote vApp: “I have a dream that one day little black boys and girls will be holding hands with little white boys and girls.” Source: Dr. Martin Luther King.</td>
</tr>
<tr>
<td>1 min</td>
<td>The assignment for today’s class is to make your own “I Have a Dream” speech and use TouchCast to present it. Make sure to use the green screen and at least three vApps. In order to do so, you need to come up with some ideas of what this dream mean to you. What are the themes you would like to discuss in your speech?</td>
<td>vApp - List - 1. The Education Gap. 2. Civil rights in third world countries. 3. Gender issues. 4. World peace, Etc.</td>
</tr>
<tr>
<td>50 sec</td>
<td>Here are some ideas for themes.</td>
<td></td>
</tr>
<tr>
<td>10 sec</td>
<td>You can start YOUR speech with Dr. MLK Jr. words - &quot;I have a dream...&quot;</td>
<td></td>
</tr>
</tbody>

Choose from available themes or tap “create new”
How to make a TouchCast // Create a New TouchCast

You can cancel or save your on-screen elements as a **project** to use later.

**TIME TO CAST!**
When you are ready to record your TouchCast. Tap the record button.

**READY TO HAVE FUN?**
Choose from the bottom menus to add on-screen **video apps**, effects, **title graphics**, and **whiteboards** to your TouchCast.

Tap done to preview and share your new TouchCast.

The menu you choose will update the controls here.
How to make a TouchCast // Add a Title

Watch TouchCast Tutorial for Titles

Tap the title thumbnail in the carousel to toggle on. Press & hold to delete.

Adjust how long the title should stay on screen.

Add another title.

Go to the next title.

Hide the title on screen.

This is default teleprompter text. You can edit this by typing new text or by pasting text from some place else. The teleprompter allows you to view and control a script for the author automatically when you place the teleprompter in view. The teleprompter key plays automatically when you play the teleprompter.

Camera controls:
- Provide camera and teleprompter options and controls
- Turn on & off the camera
- Lock the camera’s focus & exposure
- Mic monitor allows you to see the sound level
- Turn on & off the guides
- Swap the rear & front cameras

How to make a TouchCast // Tips

Plan your TouchCast, make a script, and time each vApp

Put your iPad right in front of you (so you don’t get a ‘double chin’ view)

Adjust the position of your iPad to make sure the camera is on the left side (so it looks like you are looking into the camera)

Save your project frequently

Record your TouchCast in short segments, pause, and continue to the next segment

Record your script first (with the teleprompter), then import it as video, the add your vApps on top of the video (only available for iPad 4 and up)

Close all other open applications to free up iPad memory

Watch TouchCast Tutorials on the website for more information
Educators are the catalysts and the driving force of shaping TouchCast for the important cause of creating meaningful learning experiences.

Please join us today to be a TouchCast educational pioneer!
We would love to receive your insight and feedback, as well as, answer any questions you might have.

THANKS

www.touchcast.com
TouchCast was chosen by Apple as one of the best apps of 2013!
TouchCast is a foundational technology platform for the future of the #videoweb.

A TouchCast is a new kind of video that can encapsulate interactive elements within it: Web pages, documents, videos, pictures.

TouchCasts also contain clickable elements called Video Apps (vApps) - active HTML objects inside the video. They include maps, polls, Twitter streams, clickable headlines, photo galleries... almost anything developers can imagine.

Most importantly, TouchCast allows anyone from a first-time blogger to a movie studio - to create and watch stunningly multi-layered and hyperinteractive videos.
